Morgan-Guggenheim Syndi-
cate Asks to be Heard Be-
fore Probe Committee

WASHINGTON, Feb. 23.—Friends
of Secretary Ballinger hint today that
he intends to resign and return to the
practice of law at the conclusion of
the present investigation. They de-
clared that the only reason he did
not resign now is because he fears
the people would assign a wrong mo-
tive for his resignation.

WASHINGTON, Feb. 23.—Adher-
ents of both sides of the Ballinger-
Pinchot controversy are speculating
upon the significance of the request
of the representatives of the Morgan
and Guggenheim syndicate that they
may be heard before the congress-
ional investigating committee. Stephen
Birch, managing director of the
syndicate and John N. Steele, general
counsel, have sent a letter to Senator
Nelson, chairman of the committee,
asking to be allowed to testify. It is
believed they wish to present testi-
mony regarding the syndicate's ac-
tivities and holdings in Alaska.

**VALUABLE INFORMATION
CONCERNING PRIMARY LAW**

Much interesting and valuable in-
formation concerning the new pri-
mary law is contained in a letter re-
ceived by District Attorney S. M.
Davis. After conferring with County
Clerk W. B. Williams, the district at-
torney gave the letter to the public
through the press.

The letter follows:
State of California, Office of Attorney
General.

San Francisco, Cal., Feb. 19, 1910.
Hon. S. M. Davis, District Attorney,
Orange County, Santa Ana, Cal.

Dear Sir:—On February 17, 1910,
in the case of Grieb vs. Zemansky,
the Supreme court, in construing the
new primary law, rendered a decision
that is of great importance to every
voter in this state, and this office has
received so many inquiries as to the
effect of the decision that I request
your co-operation in giving the follow-
ing facts the widest publicity.

The decision holds:
1. No voter can sign any candi-
date's petition unless he has registered
this year and designated his po-
litical party on the Great Register
of the county.

2. No elector can vote to nomi-
nate candidates of his party at the
primary election to be held August
16, 1910, unless such elector registers
this year.

3. Every elector, when registering
this year, must designate the political
party of which he is a member, if he
wishes to vote at the primary, or
sign petitions of candidates.

Under this decision, certain prelimi-
nary matters affecting the primary
election for congressional, state, coun-
ty and township officers this year be-
come of the utmost importance.

At the primary election to be held
August 16, 1910, the candidates of all
political parties for congressional,
state, county, and township offices,
will be nominated by the people who
vote on that day.

**NEGRO RAN AMUCK;
WOUNDED SEVERAL**

JERSEY CITY, Feb. 23.—The po-
lice are tracing a negro who ran
amuck with a revolver in a smoking
car in a Jersey Central train. He
wounded two prominent young men,
A. Higby and Leon Lord, who are be-
lieved to be dying in the hospital, and
wounded Gael Young of New York
and Roger Young of Newark. The
negro charged that one of the whites
made slighting remarks about a col-

**JOSEPH SCOTT'S SON
DIES FROM RABBIES**

LOS ANGELES, Feb. 23.—After the
death yesterday of 10-year-old Joseph
Scott, Jr., son of President Joseph
Scott of the Chamber of Commerce,
an autopsy revealed the fact that the
boy had died from rabies, the result
of a slight bite from a dog several
weeks before. The funeral services
were held today with Bishop Conaty
participating.

**CRYPTOGRAMS TO
BE INVESTIGATED**

Believed to Bear on Graft Cases
—Attorney Fickert Works
at Calhoun's Behest

SAN FRANCISCO, Feb. 23.—Dis-
trict Attorney Fickert is working on
a series of cryptograms bearing on
the San Francisco graft cases, which
have been submitted to Fickert by
Patrick Calhoun, the indicted head
of the United Railways. They were
printed in a San Francisco paper, be-
tween May 23, 1908, and Aug. 4,
1909. The advertisements were pre-
sented in the Los Angeles office of
the paper then telegraphed to San
Francisco on the night of publication.
William Stone, a watchmaker of Oak-
land, it has been discovered, follow-
ed the messages closely. He asserted
that some of them refer to threats
against Calhoun and others apparent-
ly refer to the death of Chief of Po-
lice Biggy, lost in the bay from a
launch.

**VALUABLE INFORMATION
CONCERNING PRIMARY LAW**

mary ceases on July 26, 1910.
All candidates' petitions for con-
gressional, state, county and town-
ship offices must be filed with the
county clerk not later than July 16,
1910.

You will readily see that unless a
vigorous effort is made in every
county of the state to get every voter
registered at once, the true purpose
of the primary law is in danger of
being defeated.

The purpose of the primary law is
to place in the hands of the voters
of the state the power to assist, with
their votes, in controlling the selec-
tion of nominees of the party of
which each voter is a member. This
power and privilege will be lost by
the people unless they register this
year in time to sign the nomination
petitions and to vote for the nomi-
nees. In large cities, it will be an
easy matter to quickly secure a com-
plete new register, but in the interior
counties, where the voters are scat-
tered, the task will be slower and
more difficult, and, unless every voter
registers and votes for nomi-
nees at the primary, the result will
not be a full expression of the peo-
ple's will.

The people are entitled, under this
law, to control, and should control,
the selection of nominees for office,
and no power can prevent their so
doing, if they will register for, and
vote at the coming August election.

I earnestly urge you to take up
this matter with your county clerk,
to the end that means for rapid reg-
istration be adopted, and, also, that
by all possible methods of publicity
the voters of your county be notified
of the necessity of registering im-
mediately.

I have also received many inquiries
as to whether cities of the fifth and
sixth classes are governed by the
primary act, and, as you may have

**KLASSEN TOO
VICTIM OF
MARTENS
DEALS**

Complaint Alleges Bakersfield
Man Had No Land to
Trade for Ranch

**DEFENDANT SAID
TO BE EMBEZZLER**

Sister Suit to One Begun by
Krugers Begun Here This
Morning

For the second time within a few
days, one Henry J. Martens, formerly
of Hillsboro, Marion county, Kas.,
now of the great unknown, has been
made defendant in a fraud suit in this
county. Co-defendants with him are
Martha A. and J. C. Fast still of Hills-
boro, Kas., alleged agents of Martens.
The first suit brought against the
three was begun by Henrietta Kruger
last week. This morning the second
complaint was filed. The plaintiff is
Peter M. Klassen of Anaheim. Klas-
sen is suing to rescind a deed given
to Martens in an alleged bogus real
estate deal for Kern county land. It
was just about such a deal that
caused Mrs. Kruger to sue, and she,
too, asks to rescind a deed given Mar-
tens.

In both instances the transfers of
Orange county property were made in
part payment for Kern county land,
and in each case the plaintiff declares
that Martens did not own the land he
proposed to trade off.

Martens, who made a few deals in
this county, held forth at Bakersfield.
He is now gone from that city, and it
is reported to Attorney F. C. Spencer,
who represents Klassen, that Bakers-
field officers hold warrants for Mar-
tens arrest on charges of embezzle-
ment. At any rate, Martens is where
the woodbine twineeth or where the
sad sea waves sing their song or
some other place equally as hard to
locate.

Klassen's complaint states that
about a year ago he owned twenty
acres at Anaheim. Along came Mar-
tens and offered to take the place at
\$3200 as part payment on 160 acres in
Kern county. Martens to assume an
\$850 mortgage on the Anaheim ranch
and Klassen to take a \$3400 mortgage
on the Kern county land. Also Mar-
tens was to loan Klassen \$1000.

Klassen went to Kansas, where he
was ill. Martens then went to Mrs.
Klassen, who was in Anaheim, and
persuaded her to sign an agreement
of sale, telling her that it was in ac-
cordance with the terms agreed to by
her husband. Mrs. Klassen signed the
agreement and also a deed. The
deed was sent to Kansas, where Klas-
sen signed it thinking it was in ac-
cordance with his agreement. As a
matter of fact the agreement signed
by Mrs. Klassen was an agreement to
buy the 160 acres in Kern county with
no loans or mortgages mentioned.

Klassen returned to California a
short time ago, and not until then did
he know of the terms of the agree-
ment signed by his wife. In the
meantime the crops of the Anaheim
ranch, worth \$1000 had gone to Mar-
tha A. and J. C. Fast, to whom Mar-
tens had immediately deeded the Klas-
sen ranch on receiving the deed from
the Klasses. The Fastes were also
the ones to whom Martens deeded the
Gruger ranch.

Klassen alleges that Marten does
not own the 160 acres in Kern county,
and that moreover the ranch is of lit-
tle value, it being full of alkali.

The superior court is asked to res-
cind the deed of the Klasses to Mar-
tens and the deed of Martens to the
Fastes, and to give the Klasses dam-
ages for the loss of their 1909 crops.

LONDON, Feb. 23.—A new sensa-
tion developed today in the political
situation, which again brings Mrs.
Asquith, wife of England's premier,
into prominence as wielding a power-
ful influence in the affairs of the em-
pire. It is alleged that for the prize
of social preferment, Mrs. Asquith
will influence her husband to weaken
in his stand against the lords.

King Edward is being considerably
criticized today for having indirectly
exerted an alleged influence over the
premier with promises of social hon-
ors for his wife. William Watson,
the poet, wrote a poem, "The Woman

was directed at her. In the sensa-
tional poem, Watson charged that
she sacrificed her friends upon the
altar of her ambition.

It is now charged that the king has
played upon her ambitions to cause
the premier to change his former
stand against the lords to the vacil-
lating policy which threatens to re-
sult in the early dissolution of par-
liament.

Vice is a monster of such frightful mien,
That to be hated needs but to be seen;
Yet too oft familiar with his face,
We just endure, then pity, then embrace.—E. Cowper.

AN EYE OPENER

Every American citizen, every man who has any respect for the womanhood of our country, should read the report to congress, which is to be published in "Clean Politics," as per the following article, and act accordingly. Send me your name, with five cents, and receive copies of the four issues of Clean Politics containing this report.

God's word says: "My people are destroyed for lack of knowledge."
—Hosea 4:6.—Amos Wright, Fullerton, Calif.

There was presented before the Congress of the United States, December 10, 1909, a document that will go down in American history as one of the most seathing public denunciations of a great and growing festering sore on the public morals of this country our nation has ever witnessed. This document is a report of the commission appointed by Congress in 1907, whose ascribed duty was to make a thorough investigation of the so-called "white slave" traffic in girls.

But little was ever thought of this committee, many social reformers forgetting that it was even appointed, until it made its report to Congress—so calmly, so coolly and quietly, but determinately did it go about its work. So startling was the revelations made, so terribly depicted was the traffic in girls, so revolting were the discoveries that the lower House of Congress voted unanimously to exclude the document from the mails and refused to put it in print. At the time this report was made all the great daily papers had big headlines about it, but none of them gave their readers any accurate knowledge of its contents. Thus far this report is to the world as if it had never been made.

But the same report was made to the Senate, and that body, apparently in a quiet manner, without getting its action unnecessarily into the papers, ordered it printed. Of this document Clean Politics has at last secured a copy. We have carefully read it.

The chairman of the commission, W. P. Dillingham, plainly states that so revolting were the revelations that nothing is put in it but the facts they actually discovered with their own force of detectives, and that all sensationalisms had been cut where it was possible to do so and yet present the truth. In other words, when one reads this report, with all of its horrible and revolting revelations, he at once realizes that he has read a report, though full of stories of cruelty and torture such as an ordinary American would think impossible or intolerable in his country, he must face the terrible realization that the horrors of which he has read are only a drop of rain in a flooded, foaming river, when compared to ALL the horrors connected with this business.

The report makes a pamphlet of 61 large pages and deals with almost every phase of the "white slave traffic." No one who has a spark of love in his heart can read it without becoming so aroused that he will swear an eternal vengeance on the perpetrators of this vice, and the keepers of houses of ill fame, procurers and pimps, whose deadly and immoral traps are set for every American girl, rich or poor, whose precious life and hopes are snuffed out at one fell stroke of their poisonous and leprous hands. It is one of the most terrible and heartrending reports ever contained in an American public document.

We thoroughly believe that if this

document can be placed in the homes of a MILLION READERS it will be the ONE thing that will break the backbone of this gigantic organization of criminals, who are selling the virtue of women to beastial men, and threatening the very life of the republic.

Our first thought was to commence to publish it in Clean Politics in installments, and then on maturer thought, decided that that was not the proper thing just now. That document should have a million readers—not a hundred or a thousand. It is estimated that FOUR persons read every paper. We are going to propose that the Prohibitionists of America place this document in the hands of ONE MILLION READERS, and they will do it, for we will make it so easy for them that the very enthusiasm of our people will compel them to arise and act.

The first installment of this horrible story will appear in Clean Politics in its issue of Thursday, March 17th, giving our loyal workers six weeks in which to raise the necessary amount of money to send the paper to AT LEAST 250,000 different individuals. There will be FOUR installments of this terrible publication, each number taking several columns of space. The series will take up the dates of March 17, 24, 31, and April 7, the very time when people ought to be aroused by reading such a story.

We want every minister in the United States to receive a copy of each installment. We have the address of nearly 120,000 of these ministers, and can get the other 20,000 on short notice. We have in our office the names and addresses of about 125,000 Prohibitionists, W. C. T. U. workers, and friends of Prohibition, hopeful Democrats and Republicans, etc. We want these to all get a copy of each issue of these great special editorials.

But we can not bear the expense ourselves. We would if we could for humanity's sake. We can not. Fate has precluded such generosity on our part, FOR WE HAVE NOT THE MEANS. But the Prohibitionists have; as a rule they are not poor. Men and women are reading this who are in such circumstances that they could send their check for ten, twenty-five, fifty or a hundred dollars, AND NEVER MISS IT, but for so doing would ever after rejoice for it. Nearly ALL can do SOMETHING towards this no doubt the most stupendous undertaking any Prohibition journal ever entered into. It must succeed.

Is there a man who will contribute the price of one innocent girl who is captured and sold into these immoral places of hell? The report says the prices of young girls range from five to eight hundred dollars. Fling it back into the teeth of these pimps, procurers and leprous rascals with the price of a girl for the salvation of womanhood and the honor of our mothers and daughters. Is any one reading this who feels the Spirit say, "do it?"

To make it easy, we have cut and pruned and shaved on the price until almost EVERY CENT of profit is thrown to the winds. What we want is to get our paper and that report into the hands of the American people, and WE ARE GOING TO DO IT.

From previous experiences we have had with special editions, we have learned that the least we can furnish CLEAN POLITICS for, when addressed to each individual, and mailed direct from this office, is 80 cents per hundred, \$8.00 per 1,000 names, FOR EACH week. In other words, \$3.20 will send Clean Politics to 100 different persons for these FOUR weeks, all addressed here by our own force. If you prefer to have the papers sent direct to YOU, or some person or persons whom you designate, in bundles, we will let you have them for

\$6.00 per thousand, in either SMALL OR LARGE QUANTITIES.

If you prefer you may send us the names, but we would suggest that inasmuch as we have such a choice list of names, and to avoid any duplications, that you allow us to select the names from the lists in our office, PROVIDED these names are to be sent to SEPARATE individuals.

Now we think you understand it. We want the orders to rush to us NOW. Do not wait until the last week, or one week. Order NOW, when it is on your heart. You can either send the pay NOW, or wait until the week the first issue is sent out. But above all order NOW.

This is the time when Prohibitionists should act as if the cleansing of the nation depended upon THEM, and as if the whole country was in danger of utter destruction. Will ALL of us, for one time, act as ONE MAN, and flood this country with four issues of this paper that will send up a protest to every legislative hall in the union as has never before been witnessed by our moral forces. You have it in your power to do it, and will you do it? Who will be the first man or woman to show his or her resentment by answering this appeal to the patriotism of the Prohibitionists?

Here's one case of it:
F. P. Fraser, 1642 Regent street, Santa Ana, Cal., says: "I have known and have been an endorser of Doan's Kidney Pills for some three years. Symptoms which gave evidence of weak kidneys were very pronounced in my case. For a long time I was subject to attacks of pain in my back and I was caused much annoyance by too frequent passages of the kidney secretions at night. When I commenced the use of Doan's Kidney Pills my condition was considerably worse than it had been for a long time, but it did not take this excellent medicine long to remove the pains and other troubles. I feel that I have every reason to give Doan's Kidney Pills my endorsement" (Statement made March 8, 1907.)

Confirmed Proof

On August 11, 1909, Mr. Fraser was interviewed and he said: "I still hold Doan's Kidney Pills in high esteem and I gladly confirm my former endorsement of them. I have been free from every symptom of kidney complaint since this remedy cured me."

The Valentine party at Geo. Crittenden's was a great success. Games were played and refreshments consisting of ice cream and cake were served.

Bald Men in Danger

A lady in Clayton, N. J., was caring for her hair when the tonic exploded, badly burning her and furnishing more excitement in the neighborhood than a croquet baby. The pure food people should look into this, for as long as explosive hair tonic is sold, the bald man is sitting on a confined volcano.—Minneapolis Journal.

LITTLE ITEMS OF A PRODIGIOUS CITY

All countries receive merchandise from the port of New York, but our best customer is Great Britain. The exports to that kingdom for the last year were valued at \$700,000,000.

New York is the only city in the world where the restaurants provide the native dishes of every land. A Spaniard, Norwegian, Chinaman or Scotchman finds no difficulty in getting his home cooking.

Do you realize the amount of business that the general postoffice of Manhattan island does? There are twenty-one states of the union whose combined business does not equal it, and it is more than the postoffice business of Philadelphia and Chicago combined.

If people make a city, then New York is the newest city on the continent, for only one New Yorker out of five had American ancestors three generations back.

Fred Gilbert Proposes Channel
Newport to East
Newport

Newport News: A proposition is on foot to raise funds to dredge a channel from Simpkin's boat shop to East Newport, that merits support. Fred Gilbert has offered to dredge a channel the 6000 feet required, to a depth of four feet at a minus tide, fifty feet wide, for \$5000, and has offered to donate \$500 himself to the project. The matter will be taken up by the Chamber of Commerce at the next meeting, the first of the week, and it is thought the money can be raised with little difficulty. It is a project in which every property owner in the city is interested, and all should be willing to contribute so much a lot to the worthy cause.

TOBACCO'S EFFECT ON HIGH SCHOOL PUPILS

The hurtful effect of tobacco on scholarship has been noticed by many teachers. The matter of a concrete illustration, taken from the records of work done by smokers and non-smokers, is new. In order to bring the topic before the students in a practical way, in a morning talk, two lists of twenty-five students each were prepared. The students were selected for these lists without regard to grade, scholarship, age, color, or any other condition than one. One list to smoke; the other of twenty-five consisted of twenty-five boys known not to smoke. The school records yielded the following results.

Average standing in subjects	87%	74.62%
Number of subjects taken	5.04	4.36
Number of question marks given because work was incomplete	3	17
Total days absent	11	49
Times excused before close of sessions	1	4
Number of times tardy	3	7
Average attendance	98.16	91.83

If the non-smokers were to take only 4.36 subjects, the work of the smokers, their average standing would be 100.57 per cent. If the smokers were to attempt to do the work of the non-smokers, their average standing would be only 64.70 per cent.

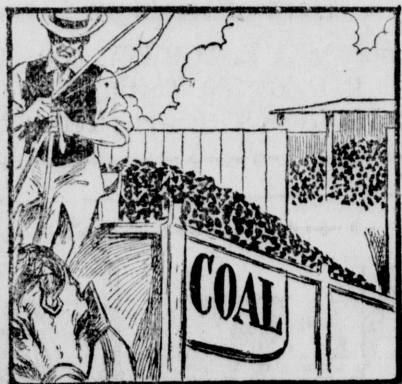

These results prove conclusively that the smoker (1) is more irregular in attendance, due to illness, and not being of sufficient resisting power to stand the work of the school; (2) is unable to carry the full quota of subjects in school; (3) is unable to do as good work in the subjects he does carry as does the non-smoker; and (4) barely passes the work undertaken, if he passes at all, more often not passing. He does a less quantity and a poorer quality of work. The weakening action of tobacco on a growing mind is clearly demonstrated. The partly grown boy needs all of his strength for intellectual development and for his studies if he would get the best from his school life. American Education.

The salmon output of Alaska equals the combined catch of British Columbia, the United States proper and Japan.

A Bold Step.

To overcome the well-grounded and reasonable objections of the more intelligent to the use of secret, medicinal compounds, Dr. R. V. Pierce, of Buffalo, N. Y., some time ago, decided to make a bold departure from the usual course pursued by the makers of put-up medicines for domestic use, and so has published broadcast and openly to the whole world, a full and complete list of all the ingredients entering into the composition of his widely celebrated medicines. Thus he has taken his numerous patrons and patients into his full confidence. Thus too he has removed his medicines from among secret nostrums of doubtful merits, and made them Remedies of Known Composition.

By this bold step Dr. Pierce has shown that his formulas are of such excellence that he is not afraid to subject them to the closest scrutiny. Not only does the wrapper of every bottle of Dr. Pierce's Golden Medical Discovery, the famous medicine for weak stomach, indigestion or biliousness and all catarrhal diseases wherever located, have printed upon it, in plain English, a full and complete list of all the ingredients composing it, but a small book has been compiled from numerous standard medical works, all the different schools of practice, containing very numerous extracts from the writings of leading practitioners of medicine, endorsing in the strongest possible terms, each and every ingredient contained in Dr. Pierce's medicines. One of these little books will be mailed free to any one sending address on postal card or by letter, to Dr. R. V. Pierce, Buffalo, N. Y., and requesting the same. From this little book it will be learned that Dr. Pierce's medicines contain no alcohol, narcotics, mineral agents or other poisonous or injurious agents and that they are made from native medicinal roots of great value; also that some of the most valuable ingredients contained in Dr. Pierce's Favorite Prescription for weak, nervous, over-worked, "run-down," nervous and debilitated women, were employed long years ago, by the Indians for similar ailments affecting their squaws. In fact, one of the most valuable medicinal plants entering into the composition of Dr. Pierce's Favorite Prescription was known to the Indians as "Squaw-Weed." Our knowledge of the uses of not a few of our most valuable native medicinal plants was gained from the Indians. As made up by improved and exact processes, the "Favorite Prescription" is a most efficient remedy for regulating all the womanly functions, correcting displacements, as prolapsus, anteversion and retroversion, eradicating painful periods, toning up the nerves and bringing about a perfect state of health. FIREMAN IS LOSER FINGER

Smashed Doing Duty at Fire
and Result is That It is
Amputated

FULLERTON, Feb. 22.—Frank Claudina, a member of the local volunteer fire department, had a finger badly mangled while fighting the fire at the Fallert home Sunday night and the injured digit had to be amputated.

C. Guthaus and family will move to the new oil fields at Taft.

The Pacific States Telephone Co. is placing its wires in the central part of the city underground. A cable will also be strung between Fullerton and the upper end of Placentia avenue, a distance of four miles. The many improvements being made here, including this work and equipping the new office, will cost more than \$30,000. The company expects to be in its new office in a few days.

Frank Wheeler, a newcomer from Kansas, and a brother of Mrs. Arthur Johnson, has purchased lots in the Walgrove tract, south of the depot, and will build. Arthur Johnson has also purchased five lots and will erect one or two residences in the same tract.

Mr. and Mrs. F. E. Johnson have returned from a visit to Coffeyville, Kas. They have purchased property in Kansas and will return to that state, accompanied by their son, Walter Johnson, the well-known baseball pitcher.

For the week ending last night oranges were shipped as follows from Fullerton in carload lots: Placentia Association, 8; Benchley Fruit Company, 7; C. C. Chapman, 3; H. L. Dalrymple, 6. The Orange County Nursery also shipped three carloads of trees north.

EIGHT-HOUR SHIFTS IN BANKS

Plenty of Work to Keep Them Busy
The Whole Twenty-four Hours
(From the New York Sun.)

Four big banks in the Wall street district resemble the great gold mines of the West in one striking feature. They have three eight-hour shifts of toilers and the work never stops. One set takes up the routine where the other leaves it off. All night long, Sundays and holidays, a staff of men in each of these banks is busy opening thousands of letters, sorting and listing innumerable checks and drafts that represent fabulous sums of money. These they get ready for the day force, which is the only one the public comes in contact with or ever hears about. If this work was not carried on incessantly the banks would soon be overwhelmed with a mountainous accumulation of detail.

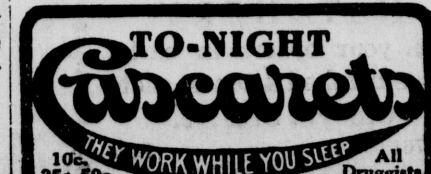

Two shifts—the "scouting force," as they call themselves—work between 5 in the afternoon and 9 the next morning. Each bank has a big drawer in the general post office. Messengers clear this of its letters every hour all night long.

"Three thousand letters a day is the average mail of one of these large banks. Two-thirds of it comes in during the night. These letters, the case of one of the biggest of these banks, contain from 35,000 to 40,000 checks and drafts. At times these enclosures represent as much as \$30,000,000. Rarely does the total fall below \$20,000,000.

The letters are opened as fast as they are received, the checks are counted and the totals verified with the footings of the lists. The letters are then stamped, which shows that they have been "proven in," as the banks call it. After that they are turned over to the clerks, who send out the formal acknowledgements of the remittances they contain.

The various checks are assorted according to the number of the books in which they are to be entered and otherwise. The sight drafts are grouped according to the routes of the bank's messengers and all is made ready for turning the night's accumulation over to the day force, so it may be handled by it as expeditiously as possible.

Each of these shifts of night workers at the banks consists of from twelve to twenty men. Some banks get along with but one extra set of clerks at night. These come on duty at midnight and leave at 8 a. m. This plan of working all night long in order to keep up with the tremendous amount of business that comes in by mail was inaugurated about five years ago. The first bank that tried it found that so much valuable day time was saved that one institution after another took it up, until now there are four that have these eight-hour shifts of clerks and several more who work only a part of the night.

Own Your Own Mind.

Have you ever considered the possibility of doing this? Remember that living in a rented mind, furnished with opinions bought on the installment plan, never offers any inducement with it for the future. Not only this, but you are not saving up anything.

The advantages of owning your own mind will be apparent at a moment's thought.

In the first place, you come to take a personal interest, which you do not feel when it is owned by some one else. Then again the natural increase in value redounds to your own profit. You have no one to dictate to you as to the inside furnishings and decorations. Besides, it makes you more particular with regard to what you put into it. If you live in a rented mind you don't care much. You will drive nails in the walls and get generally careless about it. But when you own your own mind you are constantly going about picking it up. You take real pride in it.

Be it ever so humble, there is no place like a mind that you own yourself.—Life.

Length of Dreams.

Three physicians were discussing the matter of the length of dreams.

"One afternoon," said one of them, "I called to see a patient, and, much to my satisfaction, I found him sleeping soundly. I sat by his bed, felt of his pulse without disturbing him and waited for him to awaken. After a few minutes a junk dealer's cart with discordant ringing bells turned into the street, and as their first tones reached us my patient opened his eyes.

"'Doctor,' he said, 'I'm glad to see you and awfully glad that you woke me, for I have been tortured by a most distressing dream that must have lasted for several hours. I dreamed that I was sick, as I am, and that my boy came into the room with a string of most horribly sounding sleighbells and rang them in my ears, while I hadn't power to move or speak to him. I suffered tortures for what appeared to be an interminable time. I'm so glad you woke me.'

"The ringing of those bells for one second had caused all of that dream and just at the waking moment."

Tough Turkey.

Mark Twain when he worked in Nevada on the Virginia City Enterprise inserted in the news a good many boarding house jokes.

In revenge the humorist's sensitive fellow boarders in Virginia City decided to put up a game on him. They enlisted the landlady's help, and at the Thanksgiving dinner at the boarding house Mark Twain by a dexterous piece of sleight of hand was served apparently direct from the fowl with a turkey leg of painted wood.

The humorist sawed away solemnly at the wooden leg for some time. Then he said to the landlady, with a smile: "You've changed your poultry dealer, haven't you, ma'am?"

"Why, no, Mr. Clemens," she replied. "What makes you think so?"

"This turkey," he answered, giving the wooden drumstick a little whack with his knife. "It's about the tenderest morsel I've struck in this house for some months."

A Modest Judge.

A certain prominent English jurist was transferred from the chancery court to the admiralty court rather unexpectedly. While conversant with English law to a surprising degree, this gentleman had spent little time in marine law and was rather dubious as to his ability to cope with the duties of his new office. His colleagues, in recognition of the occasion, gave him a dinner, after which he was called upon for an address. He made a long and serious speech, which embraced about everything from free trade to England's foreign policy. Then, pausing a moment, he glanced round the crowded room and said:

"Gentlemen, in closing I can think of no better words than the lines of Tennyson:

"And may there be no moaning of the bar
When I put out to sea."

To Munch a Viper.

Though the prescription seems to have disappeared from the pharmacopoeia of modern "beauty specialists," it was for centuries notorious that to feed on snake meat was the way to win perpetual youth; to cure goiter, again, or any other swelling, all that was necessary was to munch a viper, from the tail up, as it might be a stick of celery, while yet another snake, if eaten, conferred the power of understanding all the tongues of birds.

Costly Counsel.

"I can understand all you have to say on the subject in an hour's time," said the judge.

"Beg pardon, your honor," persisted the young lawyer, "but I shall consume at least five hours in my argument."

"Very well; have it your own way," said the judge, with resignation. "But it will take the prisoner about five years to tell why he employed you."—Harper's Weekly.

Inherited.

"Where did Phlyem get his propensity for ballooning?"

"I don't know, but his grandfather died in the air."

"Above the trees?"

"No; under one."—New York Journal.

The Greatest Financier.

"Who was the greatest financier ever known?"

"Noah, because he floated his stock when the whole world was in liquidation."

Think of your wonderful immunity from harm if you mind your own business.—Loomis.

DOES NOT OBJECT TO THE SIDEWALK

M. D. Halladay Has Held Back
Two Years on Account
of Grade

M. D. Halladay said this morning in reference to the action of the city trustees in instructing the city attorney to look up the status of the title to the part of Chestnut street in front of M. D. Halladay, that he (Halladay) had been ready for two years to put the sidewalk in, provided the city first put the street to grade. He says that at present the grade of this street is such that if he were to put a sidewalk in according to specifications he would more than likely have it to pull up and relay. He says the grade was set some years ago by a city engineer, who made a mistake in the grade. Mr. Halladay has never dedicated the street to the city, and he does not propose to put the sidewalk down under the circumstances, but is willing and ready to put it in immediately the city comes to his terms, which he considers entirely just and reasonable.

"They can get title to that street by condemnation proceedings," said he, "and can force the sidewalk down. That will not be necessary if the city takes the steps I ask in regard to the grade. I do not object in the least to putting in a sidewalk."

A STARTLING STATEMENT

New York Medical Authorities

Claim Dyspepsia to be a
Pre-Disposing Cause
of Consumption

—The post mortem statistics of the big New York hospitals show that some cases of consumption are due, at least indirectly, to unchecked dyspepsia, especially when the victim was predisposed to tuberculosis.

Dyspepsia wears out the body and brain. The weakened, irritable stomach being unable to digest food, the body does not receive the required nourishment, and the victim becomes thin, weak and haggard. As a result, the body becomes a fertile field in which the germs of disease may lodge and flourish.

Therefore, the person who permits dyspepsia to progress unhindered is guilty of contributing toward the development of one of the most insidious and fatal diseases known to mankind.

Dyspepsia may be completely eradicated if properly treated. We sell a remedy that we positively guarantee will completely relieve indigestion or dyspepsia, or the medicine used during the trial will cost the user nothing.

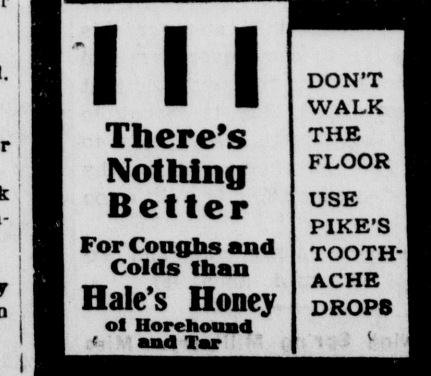

This remedy has been named Rexall Dyspepsia Tablets. Certainly no offer could be more fair, and our offer should be proof positive that Rexall Dyspepsia Tablets are a dependable remedy.

Inasmuch as the medicine will cost you nothing if it does not benefit you, we urge you who are suffering with indigestion or dyspepsia to try Rexall Dyspepsia Tablets. A 25-cent box contains enough medicine for fifteen days' treatment. For chronic cases we have two larger sizes, 50 cents and \$1.00. Remember you can obtain Rexall Remedies in Santa Ana only at our store,—The Rexall Store. Dean's Drug Store.

No Reason for Alarm

One word in conclusion on a troublesome point about which we physicians have to worry a great deal and the public still more. One often hears the statement: "All this fuss about tuberculosis is terrible for the poor victims who are made social outcasts, to their great distress and to the alarm of their families." There is no justification for this feeling.

There is no risk in close contact with tuberculosis if the patient is ordinarily careful about the sputum. If one is morbidly afraid of the disease and desires a place of safety where one can get away from its germs, go to some first class sanatorium for tuberculosis. There are fewer germs there in the air and on the floor than in any other place in the country, and there is very little risk of catching the disease in the house of a tuberculosis patient if he takes good care of the sputum, and sees that it is properly disinfected.—Dr. William Osler in Woman's Home Companion for February.

STUBBS'S LITTLE JOKE

In the suit to dissolve the merger of the Union Pacific-Southern Pacific, now being heard in the federal court in New York, the testimony of John C. Stubbs, general manager of the Harriman lines, is of local interest here because of his statement of the relation of the Southern Pacific to the state of California. He summed up the situation by saying that "the Southern Pacific is a California baby. California pets the baby more than any one else, and it spansks it too some times."

The state of California appearing in the role of mama to the Southern Pacific railroad would cause much merriment in certain quarters, and if properly staged would make a great hit on this coast. The "spanking" act especially would appeal to the auditors and would be greeted with rounds of applause; encores, in fact. It would be in the line of something new, at least, as the California conception of the relations described is just the reverse to that mentioned by Mr. Stubbs.

While the S. P. does not perhaps pose as the foster parent of the state exactly, it has the reputation of being its "boss," which has the advantage of not being responsible for its "keep." While it cannot be said to use the slipper to any great extent it uses the "lash" to good purpose, and if this is being California's baby, so it is.

SOME QUEER FACTS OUT

In the senate committee having under consideration the Flint bill for the establishment of a federal steamship line on this coast some queer facts are being brought out. One would imagine that every business man would be in for the measure with all his might and main, but such is not the case. The railroads are making quite a showing against the bill with protests signed by merchants and manufacturers. It demonstrates the power of the great private interests that have so long dominated business on this coast.

But this is not all: It came out before the committee that a Baltimore syndicate had offered the government to establish an independent line on this coast, but that the offer had been declined by Secretary of War Dickerson on the ground that it would interfere with the railroads. The patrons of these roads—the freight-payers, which includes all who consume the products that are shipped back and forth—were not taken into consideration by the secretary of war, or if they were, their interests were deemed subservient to those of the railroads.

These are not pleasant things for the American people to contemplate, especially for us on this coast who are the principal sufferers from the close combination that exists between the railroads and steamship lines, but it is best that we should know them and provide accordingly.

HERE'S HOPING!

* One or more men of national reputation may be induced to enter the race for the next state legislature. For example, in Marin county there is talk of William Kent in connection with the nomination for the assembly from the twenty-first district. Mr. Kent is known from one end of the country to the other as a man of rare public spirit. His work in behalf of reform in Chicago first brought him conspicuously before the public. He is a millionaire of the Pinchot type, devoting money, time and energy to the public service. Like Pinchot, he is profoundly interested in the conservation of our national resources. It was he who gave Muir Woods, on the slope of Mount Tamalpais, to the government, his idea being to make that beautiful tract a public park. He is a close personal friend of Theodore Roosevelt and a staunch supporter of the so-called "Roosevelt policies."

The Machine Must Go

FROM THE SAN JOSE HERALD

The campaign against "bossism" is really a campaign against the corporation in politics. No one who thinks can fail to read the signs of the times. Of course the big fight is on the floor of the House of Representatives against the corporation's particular tool, Speaker Cannon, but it is spreading farther and sinking deeper than this. As the Sacramento Union very well says:

"One does not need to be gifted with second sight to see that this country at present is undergoing a decided political transformation. The era of bosses and bossism has drawn to a close and we are approaching very much nearer a democracy than ever before in our history. Senator Root expressed this very well when he said at a banquet given in his honor the other day that we should continue to have leaders, but no rulers, that we should have organizations, but not 'THE organization.' The writing has been visible on the wall for some years, but only the sharp-sighted politically have been able to see it in the past; now, however, it is becoming so distinct that even the blind may read."

Of course the fight against Bossism is in the ascendant. Why should

it not be? With scarcely a city in the country clear of graft, with a single public service corporation recently declaring in broad daylight a dividend of 300 per cent and a Speaker in the House of Representatives refusing a hearing to men who wish to do their duty by their constituents and their country, is it any wonder that a roar of protest is abroad in the land? And if the Republican party is to be saved at all, it will be because of the men of nerve who are making the fight in Congress, and who because of their attitude are called insurgents. Had this fight not been made, the next Congress would find the Democrats in the White House. It is to be hoped the fight for freedom in the coming State elections will be led everywhere by Republicans, for in this lies the salvation of the party. In the meantime let no one be alarmed by the reports of dire calamity spread by the political corporations who read their doom in the public opinion which the campaign for reform is shaping in every State of the Union. If the country cannot survive an era of decency and fair play it had better go down fighting than to supinely lose its life by being choked to death.

Important Part That Political Parties Play

(From the California Weekly.)

The new direct primary law was approved by Governor James N. Gillett March 24, 1909, but it did not take effect until June 1st of that year. Its title reads thus: "An act to provide for and regulate primary elections, and providing the method whereby electors of political parties may express their choice at such primary elections for United States Senator."

It is seen at the outset that a voter who does not belong to any political party has no part in the direct primary law. The man without a party must select his candidates, to be voted for at a general election, under the law that provides for going on the ballot by petition.

It should be understood at the outset that our laws contemplate two kinds of elections, first a primary, or preliminary election, in which the voters within each political party name, or "nominate," their candidates to be voted for at the general election, and then the general in which all electors may participate whether they belong to a political party or not. Before these voters at the general election is spread out, on what we commonly call a "blanket" ballot, because it is so big, all the nominees of all the political parties and all the names of persons who become candidates by petition. There the issues are settled, not always on party lines, because we are coming to have a great deal of independent voting and the candidate believed by the largest number of voters to be the best man for the place is not unlikely to secure the election no matter how nominated, especially if there be a full vote.

What is a political party, and how does the direct primary law recognize its existence?

The old-time theory of political parties was that men similarly minded in regard to certain issues or candidates would come together and work together for the success of their candidates and the issues in which they believed, and so they did. But it has happened that men so brought together have remained together and worked together longer after they had ceased to be of one mind either as to measures or men. In effect they became an association, almost a corporation, for carrying on the business of conducting government and it has been held little short of treasonable for a man to desert the party he had acted with for the purpose of joining another.

Nevertheless, there are splits in all parties. If the discontented element is small it is called a "faction." If it is large the party is said to be divided into two wings, as in the case of the "regulars" and "insurgents" in the Republican party at this time.

machine, which is in regular use in his native islands. His contraption cost eighty-five cents and was matched against a \$300 American machine worked by a bank expert. The Jap announced the result within about half the time of the American expert, and the former's figures were correct but the latter's wrong. The Japanese contrivance is called a "Soloban," which is Japanese for "catch 'em quick."

If we have ever prided ourselves on

anything (and we have), it is on our talents for "figgerin'" and for this stub of a Jap to come over here and put it all over us in this way, and that in our own special line, is enough to give one the shivers. And then to have our \$300 machines outclassed by an eighty-five cent affair is a little too much.

Will someone please rise and explain what we can do about it?

PRESIDENT SPOKE TWICE IN NEW YORK

NEW YORK, Feb. 23.—President Taft spent a lively eight hours in New York yesterday, rushing about the wet streets in a big touring car, shaking hands with all the friends he met and many people he never saw before and finding time to celebrate Washington's birthday by delivering two addresses, one before the Society of the Cincinnati of the state of New Jersey at the Plaza, and the other before a mass meeting of police lieutenants of the city of New York at the Waldorf.

LONG BEACH MAY LAND BIG WOOLEN MILL

LOS ANGELES, Feb. 23.—A man who is at the head of a woolen mills concern at Oregon City, which has a half million dollars invested in Oregon, is figuring on securing a location in Long Beach. P. E. Hatch, president of the Chamber of Commerce, took up the matter with him yesterday and looked into it more in this city.

SCHOOLS SHOW INCREASE

POMONA, Feb. 23.—The enrollment at the local public schools continues to increase. The report of Superintendent Principal P. W. Kauffman shows the total registration to be 2192, an increase of 213 over last year at this time. This enrollment is distributed as follows: Grade schools, 1602; kindergarten, 215; high school, 375. There has been a gain of 135 pupils since December 1.

Tuberculosis in Japan
Kitasato has published an article on this subject in a German journal of hygiene, showing that tuberculosis is on the increase in his country. The fact that there are practically no cows in Japan, and that tuberculosis is as prevalent there as here, should furnish comment on the hysteria that is now asserting that fifteen per cent of our human tuberculosis is from cattle. Perhaps one-tenth of that amount would be nearer correct.

The eighth satellite of Jupiter, discovered at the Greenwich observatory in January of last year, proves remarkable not only for being so far from the planet, but also for its eccentric orbit, its distance from Jupiter varying from about 10,000,000 to 20,000,000 miles. It revolves around the planet in about 26 of our months.

HARRIS CONFESSES TO HAVING TAKEN MONEY

LOS ANGELES, Feb. 23.—For the first time since his arrest, two months ago, Herbert Leslie Harris, held in the county jail to await trial on a charge of grand larceny, made a positive declaration yesterday concerning the alleged theft of \$587.75 from the safe of the McFarland Shirt company December 19.

Harris, talking through his leading counsel, W. Ona Morton acknowledged that he had taken the money, asserted its ownership for himself or other persons associated with him and evaded the question when asked to explain why he had denied that he had been in the McFarland store. He also failed to give a reason for hiding the money in out of the way places in the Johnson building.

Harris' trial is set for March 13 in Judge Willis' criminal department. Attorney Morton said yesterday that the case will be strenuously fought.

LOS ANGELES, Feb. 23.—George B. Harrison, the Los Angeles balloonist, left yesterday afternoon for San Antonio, Tex., where he is to act as aid to Clifford B. Harmon, who is to start his balloon New York in an effort to break the world's record for distance and time in the air in a balloon.

PRICE OF LIMA BEANS HAS ADVANCED TO \$4.25

OXNARD, Feb. 23.—The Lima Bean Growers' Association announces that the selling price has advanced to \$4.25 per hundred pounds, f.o.b. this county. The market is strong and shipments are proceeding at a rapid pace. The association controls by pool practically all the supply. About 50,000 bags are in outside hands. The association is only handling the beans of members.

OXNARD GIVES UP WAR TO GAIN COUNTY SEAT

Entre Se Club

Miss Margaret Ore yesterday afternoon entertained the Entre Se club, needlework and social chat being the diversions of the hour. A dainty luncheon was served by the hostess, the dining table being decorated with a miniature cherry tree and hatchets, symbols significant of the day. This club limits its list of refreshments to two items of eatables, but Miss Ore evidently thought she should be allowed some latitude on Washington's birthday, so the menu comprising a delicious asparagus salad and coffee was augmented by a cherry pie and confections in the shape of candy hatchets.

These consisted of a representation of a soldiers' camp, which was very realistic, with the camp fire, stacked guns and other accessories. The room was hung with flags, and the whole scene was

effective to an extreme.

Various colonial games were played, some of them calling for geographical knowledge and no little ingenuity. The prettiest feature of the evening was the opening exercise, in which all joined. It consisted of the salute to the flag, followed by the singing of the "Star Spangled Banner."

A Washington pie with flags decorating it, was served for refreshments. A large number of people were present and everyone had a jolly time.

At the Baileys'

The handsome home of Dr. and Mrs. J. G. Bailey was thrown open last night in an entertainment given in honor of the Baileys' house guests, Mrs. Robertson and Mrs. Hamlin, the sister and niece, respectively, of Mrs. Bailey. The ladies return to their home in Santa Barbara today, after having spent the winter at the Bailey home.

Delightful music was furnished during the evening by Mesdames A. J. Padgham and Mit Phillips, and Miss Kassa Bailey. Another most interesting feature was the reading by Dr. Garnett, from the Ulster County Gazette, published in Kingston, on Jan. 4, 1890, of the account of the death and funeral of George Washington, and the memorial service in which the United States Senate and House of Representatives and President John Adams participated. The ancient paper, which is owned by Dr. Bailey, and which is of great value, is heavily marked with mourning lines, and is entirely devoted to the memorial account.

The following young ladies assisted Mrs. Bailey in serving refreshments: Misses Wotton, Crosier, Anderson and Bailey.

Entertained, Staff

Mrs. George Ford, past noble grand of Torosa Rebekah Lodge, was hostess yesterday afternoon for the members of the staff that worked with her during the past six months of service. The parlor of the Ford home was decorated in violets and peach blossoms were used in the dining room. The delightful afternoon was closed by the serving of delicious refreshments. Mrs. Ford was assisted in serving and entertaining by her niece, Miss Zella Gully.

The guests present were: Mesdames W. M. Clayton, Theo. Lacy, Theo. Lacy, Jr., Nellie Young, B. Utley, Elliott McAllister, B. F. Beskick, Clyde Bishop, Otis Bridgeford, Cary, Rufus Robinson, J. E. Livesey, Kate Montgomery, Belle Buck, John Mitchell, Crockett Bowers, Susan Mullinix, Misses Lou Morgan, Anna Schmiedeburg, Myrtle Wilson, Grace Congdon, Zella Gully.

Willard Memorial Meeting

The W. C. T. U. met yesterday afternoon at the home of Mrs. Norman, 202 East Sixteenth street. Mrs. Tedford presided. Devotions were led by Mrs. J. A. Stevenson. This was the Willard Memorial meeting and was in charge of Mrs. Norman and Mrs. Vawter and Mrs. Jones. Mrs. Vawter made some remarks on the subject.

A biographical sketch of Miss Willard was given by Mrs. J. A. Stevenson.

"What the Memorial Fund Has Accomplished," was read by Mrs. Tedford and a tribute to Miss Willard was read by Mrs. Talcott.

Quotations from Miss Willard were

given. Mrs. Swanner made some good remarks and a solo was sung by Miss Oderlin.

A recitation, "Frances Willard," was rendered by Eunice Jones. A good social hour followed the program.

The W. C. T. U. will assist in entertaining delegates to the Women's Parliament which will be held in Santa Ana April 27-28. The Union thought it best to continue the "Mothers' Meetings" that have been so popular in creating more interest with parents in the schools. Further arrangements will be made at another meeting.

The next meeting will be the annual meeting. This is the end of the year's work and reports of secretaries, election of officers and other business will be attended to. All members are urged to be present. The meeting will be held at the home of Mrs. Dr. Bailey, 608 North Broadway.

The Los Angeles Herald makes the following announcement:

"All Mothers' Congress branches, Parent-Teachers Associations, Child Study circles and auxiliaries outside of Los Angeles are informed that a department for their news and use will be published each Thursday by the Herald. Send in your meetings, general news and personals each week."

Patriotic Entertainment

(Mrs. H. Clay Kellogg.)

The anniversaries of the births of McKinley, Lincoln and Washington were observed yesterday at G. A. R. Hall. A splendid program under the auspices of the W.R.C. was listened to by a large and appreciative audience. Mrs. Elizabeth A. Lawton, corps patriotic instructor, presided.

Miss La Rue Phipps led in the singing of "Columbia." Mrs. H. Clay Kellogg gave a reading, "Carnations," which was written in memory of McKinley by John S. McGroarty, a California poet. The singing of McKinley's favorite hymn, "Nearer, My God, to Thee," was followed by a most able talk upon the life of Abraham Lincoln by Rev. Murkett. It was a masterly effort and was enthusiastically received. Mrs. Grace Moeser's piano number, "Chimes of Long Ago," was a beautiful selection, most skillfully rendered. Miss La Rue Phipps sweetly sang "Meet Me in Dreamland."

Another splendid talk upon the life of Washington was given by Rev. Garnett. It proved most interesting, although no allusion was made to either hatchets or cherry trees. A decidedly appropriate solo, "Bunker Hill," was given by Miss Ida Oderlin, her rich contralto voice being much enjoyed in its rendition.

The singing of "America" by the audience closed a satisfactory program, after which Mrs. Grace Moeser, past president of the corps, in behalf of the corps, presented last year's corps musician, Mrs. Helen Buell Barton, who is about to leave Santa Ana for a new place of residence, with a gold recognition pin. Mrs. Barton feelingly responded.

Sandwiches, coffee and cherry tarts were served in the banquet room by the tea committee, Mrs. Marcelline E. Bonny, costumed as Martha Washington, serving as chairman.

Entertained Basketball Girls

Miss Iva Miller, who teaches in the Orange high school, and who is also coach of the girls' basketball team of that school, gave an "at home" for the girls of the team yesterday afternoon. Misses Hossler and Helen Van Cartmell assisted her in her duties as hostess.

Appropriate to the day, there were portraits of George and Martha Washington framed in smilax, and trophies awarded for a Washington picture-matching game were a picture of Washington for first prize and a hatchet for the consolation. Smilax and fresias adorned the rooms.

The picture-matching game afforded an opportunity to have many pictured scenes from Washington's life, and the twenty-four guests found much of interest and amusement in the contest. Refreshments were served on the small tables used in the game.

George Washington Social

A George Washington social was enjoyed by the Christian Endeavor Society of the First Presbyterian church last night, at the residence of Miss Mary Wood, 841 North Broadway. Flags and other patriotic decorations were in evidence, and George Washington games were played. A brief program of readings by Ben Riesland and Roy Elliott, and a piano solo by Miss Medlock, was enjoyed. Refreshments were served.

Rowley Drug Co.'s Success

—The Rowley Drug Co., the enterprising druggists, rather than await the ordinary methods of introduction, urged the Dr. Howard Co. to secure a quick sale for their celebrated specific for the cure of constipation and dyspepsia by offering the regular 50c bottle at half-price.

In addition to selling a 50c bottle of Dr. Howard's Specific for 25c the Rowley Drug Co. have so much faith in the remedy that they will refund the money to anyone whom it does not cure.

When your head aches, your stomach does not digest food easily and naturally when there is constipation, specks before the eyes, tired feeling, giddiness, bad taste in the mouth, coated tongue, heartburn, sour stomach, roaring or ringing in the ears, melancholy and liver troubles Dr. Howard's specific will cure you. If it does not, it will not cost you a cent.

Sent postpaid on receipt of price, 50c.

—The following is a sample of the unsolicited testimonials received regarding the Sanders Orchard Disc Plow:

Orange, Cal., March 15, 1909.

J. C. Williams & Son,
Dear Sirs—Regarding the Sanders Orchard Disc Plow, will say that the honest truth is, that if I could not get one for less, running an orchard as I am, I would give its weight in silver before I would be without it. I would consider it a good business proposition.

Yours truly,
HENRI F. GARDNER.

HAROLD BARTLETT
IS SHOT IN THE EYE
+++++
Harold Bartlett, young son of Prof. and Mrs. W. A. Bartlett, met with a most serious accident day before yesterday, when he was accidentally shot in the left eye by a wooden arrow shotgun, a small piece of the wooden projectile striking the lower part of the eye. Hemorrhage followed, but soon ceased. It is hoped that the boy will not lose his eye, but it cannot yet be known what the ultimate result will be.

Harold was playing with some of his youthful companions, one of whom fired the shot that did the mischief.

TEN MEN TO A SIDE SHOT

Frambe's Side Lost to Cubbon's Marksmen and Oysters Are Coming

The shoot of the Santa Ana Rifle Club, held yesterday afternoon, resulted in the making of some good scores. E. C. Frambes and E. B. Cubbon selected sides and the two teams shot against each other. Frambes' side lost, and is to set up an oyster supper to the winners at the Dragon next Monday night. The side score was 553 against 518.

Will McFadden, M. Hubbard and Will Cubbon tied for high score at 62. On a single target Will McFadden got 24 out of the possible 25 points on the 500-yard target. C. W. Clement, a Union Metallic Cartridge Co. and Remington Arms Co. man, who was a guest of the club yesterday, shot with Cubbon's side, using a sporting rifle. His score of 51 was good, as against the scores made with the new rifles.

Three targets were used, the 200, 300 and 500 yard targets.

The club has ordered 6000 rounds of ammunition and seven new Springfield rifles.

Important to Business and Professional Men

The Register desires to call attention to its "Job Printing" department.

We have been told by many of our patrons that we do "job printing" in a manner that is highly satisfactory to our patrons and very creditable to the town and the office.

We employ strictly first-class workmen, use high grade stock and the latest and most attractive faces of type, and thus produce work of the BEST QUALITY.

Also we get work out on time. We do not promise a job unless we can deliver it when promised.

And our prices are always reasonable, whether we give them when taking the order or make them after the work is done—the basis of estimating cost and profit is the same in both cases.

If you are not a patron of the Register's job office, you will be pleased if you give us a trial order.

Call us on Sunset, Main 4, or Home 409 and let us send our Mr. Campbell to see you.

DYSPEPSIA OR SOUR STOMACH

Heartburn, Indigestion, Gas or Headache Go in Five Minutes

—Why not get some now—this moment and forever rid yourself of stomach trouble and indigestion? A dieted stomach gets the blues and grumbles. Give it a good eat, then take Pape's Diapepsin to start the digestive juices working. There will be no dyspepsia or belching of gas or eructations of undigested food; no feeling like a lump of lead in the stomach or heartburn, sick headache and dizziness, and your food will not ferment and poison your breath with nauseous odors.

Pape's Diapepsin costs only 50 cents for a large case at any drug store here, and will relieve the most obstinate case of indigestion and upset stomach in five minutes.

There is nothing else better to take gas from stomach and cleanse the stomach and intestines, and, besides, one single dose will digest and prepare for assimilation into the blood all your food the same as a sound, healthy stomach would do it.

When Diapepsin works, your stomach rests—gets itself in order, cleans up—and then you feel like eating when you come to the table, and what you eat will do you good.

Absolute relief from all stomach misery is waiting for you as soon as you decide to take a little Diapepsin. Tell your druggist that you want Pape's Diapepsin, because you want to become thoroughly cured this time.

Remember, of your stomach feels out-of-order and uncomfortable now you can relief in five minutes.

LOS ANGELES PRODUCE MARKET

The first outdoor asparagus to arrive in Los Angeles was received on the market yesterday morning from the Imperial Valley, as well as from a small patch grown near Hollywood. The Imperial product was packed in pound cartons and held at 70 cents a pound. It was of the small green variety. The local grass is of the heavy white stock variety and sold at 60 cents. There was a fair demand for it even at these quotations. A heavy shipment of cauliflower was brought in from La Habra. The cauliflower in this shipment was intended for transportation east, but owing to the lack of quality, was sent here and finally disposed of to one of the canneries at a price just sufficient to pay for the freight and commissions. Other local cauliflower sold at 35 to 50 cents a crate. Cabbage was down a trifle, bringing no more than \$1 for the best stock and as low as 50 cents on inferior local grade. Northern cabbage is selling at 1½ to 2 cents a pound.

Several heavy sales of eggs were recorded yesterday morning, and the market on local case-count reacted to old prices as a result. The fixed quotation went back to 23 cents a dozen. Receipts of locals totaled 133 cases.

Butter receipts were 14,337 pounds. The market was fair. Some weakness was shown in creamery firms, which sold several cases below listed prices. Lard butter was well called for.

Cheese prices were all very firm, and there was good buying on the part of a number of dealers who are looking for a general increase in the price on all grades of this commodity. Cream brick jobbed at 19 cents. Daisy and twins, eastern stock, as well as prices. Receipts were 4036 pounds.

Potato arrivals were 5546 sacks. Oregon Burbanks and Highland were the varieties which were the best sellers. No changes were made in any varieties.

A car of onions from the north was received and helped to alleviate the shortage which had been noticeable in the past week. The onions received were easily sold. Bean receipts were 976 sacks, or three cars. There was little doing in beans. Sweet potato arrivals were 20 sacks. There was no change in quotations and the market was steady.

The price of Bellefleur apples advanced 15 cents a box on all four-tier stock, the new quotation being \$1.65, against the former, \$1.50. Spanish Malaga grapes are moving slowly at \$10 per barrel. Red Emperors are practically the only variety left on the market at this time. They are bringing \$2.25 per crate.

HILLS TRIAL BEGAN TODAY

Morning Taken up in An At-
tempt to Throw Out L. H.
Hill's Venire

The trial of William O. Hill on a charge of selling whiskey on Feb. 2, began in City Recorder Willson's court this morning, and bids fair to be in that court all day tomorrow and possibly over into the next day.

It was 1:30 o'clock before the examination of the men in the box as to their qualifications as jurors began.

Attorney Bell, who is defending Hill, spent the morning session in an effort to throw out the entire venire called by L. H. Hill, the serving officer. Hill is a grocery clerk, but holds a commission from the city city trustees as an officer, his sole duty so far being to serve venires. Bell challenged the venire on the ground of the bias and disqualification of the serving officer. L. H. Hill was examined at length. City Clerk Tedford was placed on the stand by Bell and testified that L. H. Hill had been appointed by the trustees. City

Recorder Willson denied the challenge, and after the noon recess the examination of the venire began.

Bell is evidently saving all his points with the expectation of appeal should the decision of the jury be against his client. The city is represented by City Attorney Heathman and Attorney Victor Montgomery.

As yet there has been no intimation as to who the city's witnesses will be.

CONTRACT ON SAN DIEGO AND ARIZONA RAILROAD

LOS ANGELES, Feb. 23.—A contract for grading the eastern section of the San Diego & Arizona Railroad from El Centro to New River, a distance of eight and a half miles, has been let by W. F. Holt to the Southern California Contracting & Grading Company, of Brawley. The contractors undertake to complete the job by April 15.

It will be two or three years before the line can be completed from San Diego to El Centro, and in the meantime the steel rails taken up from the Southern Pacific's heavy branch to make way for heavier metal will be used on the new line, to be replaced later with heavier rails.

BIPLANE TUMBLES—AIR TOO LIGHT FOR SUPPORT

EL PASO, Tex., Feb. 23.—Charles K. Hamilton made three short flights in his Curtiss eight-cylinder biplane yesterday afternoon, but fell the third attempt and smashed the left wing of the machine. He was slightly injured, but will fly again today, adding five feet to each wing of the machine.

Hamilton declared that owing to the altitude (3700 feet) and the dryness of the air, it was not sufficient to support the machine. A gust of wind turned the machine over when it was at a height of about forty feet.

LOS ANGELES MAY HAVE MUNICIPAL LODGINGS

LOS ANGELES, Feb. 23.—Edwin A. Brown of Denver is in Los Angeles with the purpose of interesting the people of this city in the establishment of a municipal lodging house for unemployed men. Wishing to find out conditions he donned working clothes and applied at the various philanthropic and charitable houses for a place to sleep in, his search continuing for three days. He found that either the beds were full or there were no beds provided.

PERCY WINS OUT IN FIGHT FOR SENATE

JACKSON, Miss., Feb. 23.—Leroy Percy of Greenville, one of the most brilliant lawyers in Mississippi, was last night nominated as United States senator from the state of Mississippi, to fill out the unexpired term of A. J. McLaurin, who died December 23, last.

When the result of the ballot was announced there was a scene of wild confusion. The vote was: Percy, 87; Vandaman, 82.

JACKSON, Miss., Feb. 23.—The Mississippi legislature today ratified the election of Percy as United States senator. Percy announced he would be a candidate for the full term at the next election. Former Governor Vandaman will be his opponent.

DENIES SHE SIGNED IT

Question of Signature to Deed
on Trial Before Santa
Barbara Judge

Neyning that she signed a deed made Oct. 16, 1903, Magdalena F. Jepsen is suing her former husband, Christian Jepsen and others interested in a twenty acre ranch. The deed shows a transfer from C. Jepsen and Magdalena F. Jepsen to A. F. Barr of the property. The woman declares she never signed the document.

The judge granted a motion for non-suit, thus ending the trial in favor of the defendants.

J. C. McCormick, manager of the Orange County Business College and E. P. Stafford of the Commercial Bank have been called as experts on handwriting.

Four attorneys appear in the case for different parties. The case is on trial today before Judge Crowe of Santa Barbara. Mrs. Jepsen is on the witness stand. The attorneys are going into the matter of community and personal funds as between Jepsen and Mrs. Jepsen during the time that they lived together.

SHIPS ROCKS TO SMELTER

Carload From Moulton Ranch
Hills is Sent to Los
Angeles

E. R. Halesworth of this city has just shipped a carload of lime rock taken from a hill on the Louis Moulton ranch at El Toro to the Union Tool Co. of Los Angeles. This lime rock will be tested by the big smelter of the Union Tool Co. as a flux in its iron smelter, and should it prove satisfactory it is more than likely that Halesworth will ship a carload a month to the smelter.

About eighteen years ago 1000 tons of this rock was used in the Chino factory. Halesworth is shipping selected rock, and feels confident that it will prove first class. Much of the rock is shell formation.

The Spanish got much of the lime used by them in building from the vicinity where Halesworth has been working.

TO ASK NEW TRIAL IN GUN CLUB CASE

Movement Toward Appeal Has
Been Begun in Superior
Court

That the Surf Gun Club expects to carry up an appeal from the decision of the Superior court enjoining it from operating its artificial duck ponds, is indicated by a motion for a new trial of the case of R. E. Smith against the Surf Land & Water Co. The jury gave the plaintiff \$1250 damages for harm done crops on lands adjoining the gun club, and the judge issued the restraining order. The motion for a new trial will be made on numerous grounds—Misconduct of the jury, new evidence, insufficient evidence to warrant the verdict, excessive damages, on the orders of the court and the abuse of the discretion of the court during the trial. Anderson & Anderson and Watkins & Blodgett of Los Angeles, are attorneys for the gun club, and R. Y. Williams and H. G. Ames for the rancher, Smith.

SENTENCED TO GO TO CHURCH FOR SIX DAYS

MOSCOW, Idaho, Feb. 23.—Sentence to attend church for six successive days and pay a nominal fine following his conviction for intoxication, Ed. Krier has appealed rather than undergo his punishment. Krier tried to prove that he was not full by several witnesses.

—Our work room now open with Miss Helper of Chicago, in charge. Miss O'Donnell, 115 West Fourth St.

VALUABLE INFORMATION CONCERNING THE PRIMARY LAW

(Continued from Page One)

similar inquiries, would advise you that under section 2 of the primary act, and the decision in Grieb vs. Zemansky, all cities are governed by the primary law, except such as have a charter containing a special provision regulating primary nominations in their city. This, however, does not prevent the nomination of candidates by independent petitions signed and filed in accordance with section 1188, Political Code. (See section 5, Sub. 5d, Primary Law)

Yours very truly,
U. S. WEBB,
Attorney General.

WOULD INCREASE THE WAGE SCALE

SPOKANE, Feb. 23.—Basing the cost of mere existence at even lower than that paid by this city for feeding its prisoners, allowing each laboring man a family of four, and figuring the monthly rentals of a room of installments on the home at \$12, Mayor N. S. Pratt will show the city council by figures tonight that the average laborer has left about \$67 wherewith to clothe himself and family, furnish medical attention, educate his children and cover all other expenses but necessities in the year. He acquired the facts by personally investigating the conditions. Then Pratt will urge the adoption of a new wage scale for city employees, giving the common laborers 25 cents more daily. They are getting \$1.75.

DOG MAKES GREWSOME DISCOVERY AT ECHO

PENDLETON, Ore. Feb. 23.—News of a gruesome discovery at Echo, 20 of a gruesome discovery at ECHOIN miles distant, reached here today with a dog in the principal role. The canine, owned by a citizen here came trotting to his master's door with a human foot in his mouth. An investigation was started by citizens and it was found that the animal had unearthed the bones under a building formerly occupied by a saloon known by the name "Bucket of Blood." The building has not been used for three years, but by appearances the foot has been buried only a few months. Sheriff Taylor was notified, but can not make a complete investigation of the grounds until it thaws. The "Bucket of Blood" flourished when Echo was the wickedest town in Eastern Oregon.

There is a To be able

spontaneous charm and unaffected grace in the design of some Sterling flat table ware which we are now showing which will delight you. The designer's conception, severe simplicity lightened by a wreath of laurel is a triumph of good taste and artistic restraint.

to carry your umbrella in your suit case is a great convenience. For about the cost of merely re-covering elsewhere, we will supply a new cover and frame for your old umbrella and make the handle detachable by Hull's patent method.
